

**The Garrett Park Film Society presents  
Princess Mononoke**

**Friday, September 19<sup>th</sup>, Town Hall**

Japanese food (Yakatori, rice crackers, edamame, sake, Japanese beer, green tea) and the usual assortment of movie snacks and drinks) will be available at 7:00. At 7:30, the PG-13 rated animated film will be shown in **DVD format using a digital projector with stereo sound on our new 12' x 7' screen.**

An excerpt of Roger Ebert's review: "Princess Mononoke" is a great film...It tells an epic story set in medieval Japan, at the dawn of the Iron Age, when some men still lived in harmony with nature and others were trying to tame and defeat it. It is not a simplistic tale of good and evil, but the story of how humans, forest animals and nature gods all fight for their share of the new emerging order. It is one of the most visually inventive films I have ever seen.

We hope Film Society members will plan to attend. We encourage non-members to come as well and pay an admission of \$5 at the door. This is NOT a cartoon and is not appropriate for young children (PG-13). The film contains intense action and contextual violence.

**DON'T MISS the Garrett Park Film Society's new look!  
Crisper images, deeper colors and clearer sound.**
